

Company Profile

Introduction

SiD Energy Resource Limited is an independent oil and gas company with registered offices in Nigeria. We specialize in the trading of petroleum products with a vibrant marketing and distribution service network, serving recognized participants in the oil and gas industry nationwide.

Through our expertise and experience within the Nigerian Oil and Gas industry, SiD Energy Resource has evolved to include and offer Upstream operations and services – including; maritime support, equipment supply, onshore and offshore platforms supplies and services, for indigenous Oil Companies and IOC's.

Our Marketing & Services are tailored to meet domestic and international requirements in every region of West Africa, featuring premium products and services at competitive prices

Our understanding of the demands and challenges oil and gas companies face enables us to best offer solutions that exceed our customers requirements

Our products and services are tailored to our various markets and designed to meet the requirements of all our customers.

Vision

Our vision is to become the preferred global Oil and Gas Company, fully integrated, and coupled with the aim to provide excellence in the delivery of all our services

Mission

Our mission at SiD Energy Resource Limited is to become a vertically integrated energy company – covering all aspects of the energy trade value chain- covering supply, trading, marketing and distribution whilst building a foundation for upstream services

Services

Our Marketing & Services department is developing its activities in line with several of our company's objectives. We aim to maintain our commercial competitiveness, consolidate our position in a maturing region and step up our expansion in a growing market.

We continuously adapt our high-profile, assertive product and services through innovation and a clear understanding of the specific needs of our broad array of customers, who include consumers, industrial organizations and manufacturing industries.

- **Solutions Tailored to the Needs of our Customers**

Our Upstream Oil & Gas Logistics services provides dedicated support all the way from exploration through to oilfield development, using our core competencies in supply chain, offshore and waste management services complemented by a portfolio of integrated shipping, logistics and marine solutions.

We serve leading national and international oil companies with oilfield-services and equipment, offering solutions across the entire oil and gas value chain. We can assist our clients to develop strategies to manage risk, optimize their operations, and improve performance by offering tailored solutions that will meet all their requirements.

Setting the right operating strategy is critical to achieving consistent profitability. We continually assess the Nigerian downstream market to identify strategic opportunities and build capabilities in advanced analytics and fact-based problem solving to boost our agility, confidence, and maintain competitive edge.

- **Sound operating principles**
- **Maintaining high Health Safety and environmental standards.**

Supply and Trading

SiD Energy Resource manages supply, trading and logistics for a wide range of products, including refined petro chemicals, feedstocks, road construction products, distributed and sold through our marketing system..

Our Trading department markets natural gas to wholesale and large consumers, such as utility and industrial customers and pipeline operators. SiD Energy's aim is to rank among the leading marketers of natural gas in Nigeria.

An Integrated Approach to Increasing Value in the Downstream Oil and Petrochemical services whilst supplying your energy needs

- **Premium motor spirit (PMS OR PETROL)**
- **Automotive Gas Oil (AGO or Diesel)**

Marine Support

Oil & Gas drives our economy. Energy derived from it lights homes, fuels vehicles and powers industries. Getting that energy to consumers is one thing, providing upstream supply and support services for the exploration, development and extraction processes is another. SiD Energy Resource meets those needs by integrating every individual customer's upstream supply chain requirements with bespoke logistics solutions

Integrated offshore and marine value chain services provider

SiD Energy specializes in marine logistics and support services, with tailored expertise and a proven track record in the offshore oil and gas energy industries

- Transportation to offshore platforms
- Transportation of offshore jackets
- Transportation of piles and bridges
- Logistics support for commissioning offshore oil and gas platforms
- Transportation of pipe-laying equipment
- Logistic support for pipe-laying operations
- Maintenance of offshore oil and gas platforms
- Logistics support for the decommissioning of offshore oil and gas platforms
- Management of supply bases
- Tug and barge operator

HSE

Our HSEMS drives everything we do. Over the years SiD Energy has built a culture of safety and environmental stewardship.

SiD Energy is committed to helping its employees and contractors remain safe and healthy. All work carries risks. However, we identify and manage our risks by using our HSE Management System (HSEMS) and enhancing our technology, tools and competency at all levels.

We set stringent safety policies, consistently train our workforce, and give them the authority and responsibility to stop work if they believe conditions are unsafe. We also are a leader in providing health awareness and education programs to our employees, dependents and residents of the communities where we operate.

Quality Assurance

SiD Energy are dedicated to supplying high quality products and services, which continue to satisfy the needs and requirements of our customers. Our Quality Policy is reviewed at Management level to ensure its continuing suitability and effectiveness, and to ensure it remains appropriate to the purpose, scale, nature and impact of the company's activities.

Our Quality Management System satisfies all the requirements of BS EN ISO 9001:2008. Our organisations commitment is compliant with all national statutory legislation and considers all regulatory, legal and other relevant obligations related to the industry we operate in. This is evidenced by documented procedures and objectives, this is maintained by our Internal Audits and annual Management Reviews
